

## NTA FILING FEES AND ESTIMATED PUBLICATION COSTS

Nevada Administrative Code 706 requires the Nevada Transportation Authority (NTA) to collect filing fees and legal notice publication costs from applicants.

Publication costs vary according to the type of application, geographical scope of authority requested and whether a hearing is required, in accordance with State of Nevada publication of legal notice requirements.

Below is the amount required at the time of filing for each type of filing. The amount paid at the time of filing for publication costs is an estimated amount. Applicants will be responsible for paying any amount in actual publication costs which exceeds the estimated publication costs paid at time of filing. If the actual publication costs are less than the estimated publication costs paid by the applicant, the NTA will refund the difference. Once the application is deemed complete and is officially accepted, the application fee is non-refundable.
