

DEPARTMENT OF BUSINESS AND INDUSTRY
NEVADA TRANSPORTATION AUTHORITY

NOTICE TO ALL PASSENGER MOTOR CARRIERS

The COVID-19 virus has infected numerous people within Nevada. Governor Sisolak is making every effort to slow the progress of the virus in Nevada, but he needs our help.

On March 31, 2020, Governor Sisolak issued a travel advisory, joining the governors of sixteen other states, urging visitors who are out of state to self-quarantine for at least fourteen days when they arrive for the duration of their stay in Nevada, whichever is shorter. This advisory does not apply to those arriving in our state to engage as employees in the areas of healthcare, public health, public safety, transportation, or food supply services.

The Governor has asked transportation and hospitality officials to ensure that visitors to whom this travel advisory applies are made aware of this advisory and to make every attempt to encourage the visitors' compliance.

The commissioners, staff and I are making every effort to assist the Governor as he leads Nevada's efforts to slow the spread of the virus. To that end, for as long as the travel advisory remains in effect, I am instructing all motor carriers regulated by the Authority that transport passengers to deliver in person to every driver and to every passenger who is or appears to be a traveler arriving from out of state a paper copy of the advisory prepared by the Governor's office (the flyer). In addition, I am instructing all motor carriers to post within their offices in plain view, for all employees and customers to see while the advisory remains in effect, a paper copy of the advisory also prepared by the Governor's office (the poster).

You may access the advisory prepared by the Governor's office by clicking on the attached links and downloading the files. The advisory consists of two separate notices. Each notice is one page long. The flyer is the longer notice that has more instruction and smaller typeface.

Just like the service you provide, your support and cooperation in helping Nevada slow the spread of COVID-19 are essential.

Thank you so much for partnering with Governor Sisolak in his hard-fought efforts to protect the health of the citizens he serves and slow the spread of COVID -19. Stay safe and stay well.

Sincerely,

A handwritten signature in blue ink that reads "Dawn Gibbons".
