

1) Revise NAC 706A.290 to state:

1. Each transportation network company shall notify the Authority of the base rates currently in use by the company, and file with the Authority any new base rates prior to their utilization.
2. During an emergency, as defined in NRS 414.0345, a transportation network company shall not charge a fare in excess of the base rate on file with the Authority on the date of the emergency.
3. ***The prohibitions outlined in section 2 are only in effect for the first seven calendar days after the declaration of emergency as defined in NRS 414.0345. After the seventh day, the change in the base rate is limited to 1.5 times that rate for the duration of the declaration of emergency as defined in NRS 414.0345.***
4. ***If an increased fare is charged following the first seven calendar days after the declaration of the emergency, all additional revenue generated by such increased fare, in excess of the base rate, must be used to fund incentives or other payments to drivers who provide transportation services arranged through the transportation network company's digital network or software application. This section will remain in effect until the state of emergency is terminated.***
