All warehouse permit(s) for storage of household goods will expire at midnight December 31, 2022. All carriers must provide a renewal request, including the payment of \$50 by mail or hand delivery to either of our address locations.

Summary of procedure:

- Warehouse permits are only eligible for renewal if the warehouse location has not changed from prior year. A new warehouse location will require the submittal of an application.
- Permitholders must provide written notification to the Authority regarding the discontinuance of warehouse service, if applicable.
- Failure to renew the permit in a timely manner will result in penalty fees and interest and will also result in the Nevada Transportation Authority enforcement staff taking appropriate action.

Upon receipt of your payment, NTA will issue a receipt for payment and the “2023” permit.
